

How to Install SPSS 24

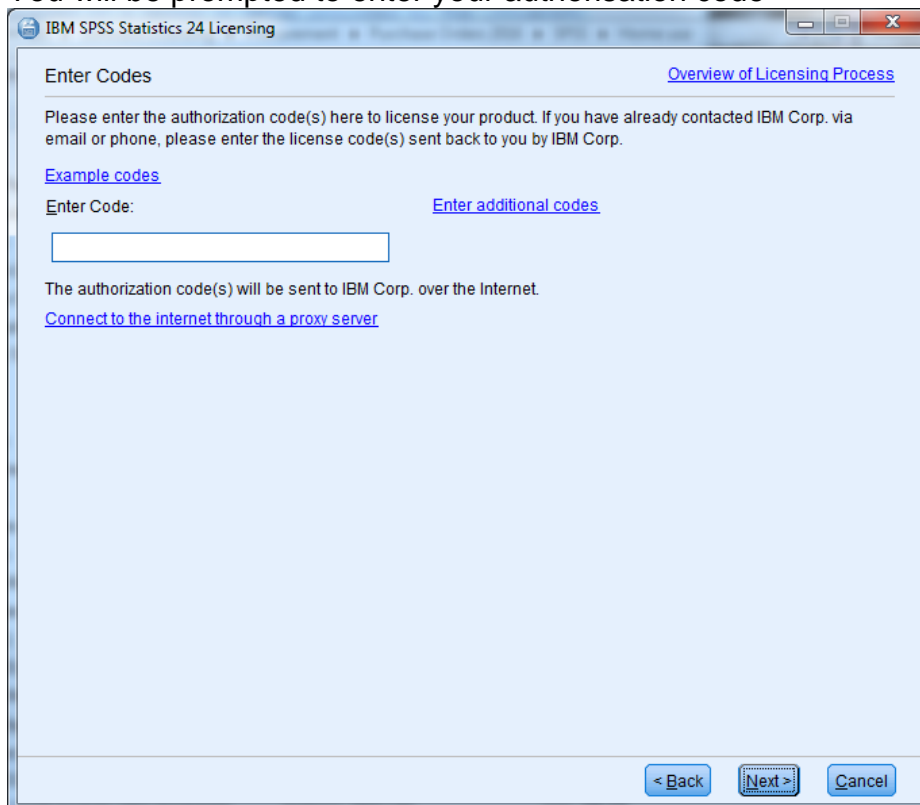

1. Before doing any installation please ensure you have taken a back-up of all SPSS files. Please note this includes the following: SPSS Data files (.sav), SPSS Syntax files (.sps), SPSS Output files (.spv) and SPSS Script files (.sbs)
2. Select the appropriate program and operating system link on the metnet page. Depending on your computer you will be asked where to save the file or it will download automatically to your hard drive.
3. Ensure you have obtained an authorisation code before you start installation.
4. Double click the .exe file and follow the on screen prompts
5. As part of the installation you will be asked to configure your licence type.
6. Select "Already purchased IBM SPSS Statistics"

7. Select "Authorised user license"

8. You will be prompted to enter your authorisation code

9. Use the "next" button on the remaining screens to complete authorisation

10. You will need to restart your computer. SPSS24 will then be ready to use
