

*An  
Englishman's Home*

*by  
Parker Knoll Cabinets*

The word 'home' means personal style, permanence, comfort. Picture such a home and you'll see images of fine English furniture. At Parker Knoll we took this to heart when we designed our new range. As you'd expect from our reputation for quality and durability, we make our furniture from the finest Mahogany and Burr Ash combined with anigré veneers to give countless years of pleasure. We had your home in mind.

The examples you are about to see are for your guidance. Since all pieces of natural wood are unique, finishes will vary slightly.

This Burr Ash cabinet, so beautiful in the simplicity of its classic styling, forms a base upon which you can add the 2 door top unit.

This stylish piece is made up of several units, including an internal corner unit. It also demonstrates how well the tops combine with the base units.

The wood-fronted drinks cabinet folds down to reveal a mirrored back. All cleverly planned to gain the maximum effect from the concealed lighting. In fact, we are rather proud of our lighting.

Designed to shine downwards from its recessed hiding place, through the glass shelves of the cabinets, highlighting the contents displayed. The glass shelves are removable. Other features include a drawer specially fitted for cutlery in the two, three, four and five drawer units.

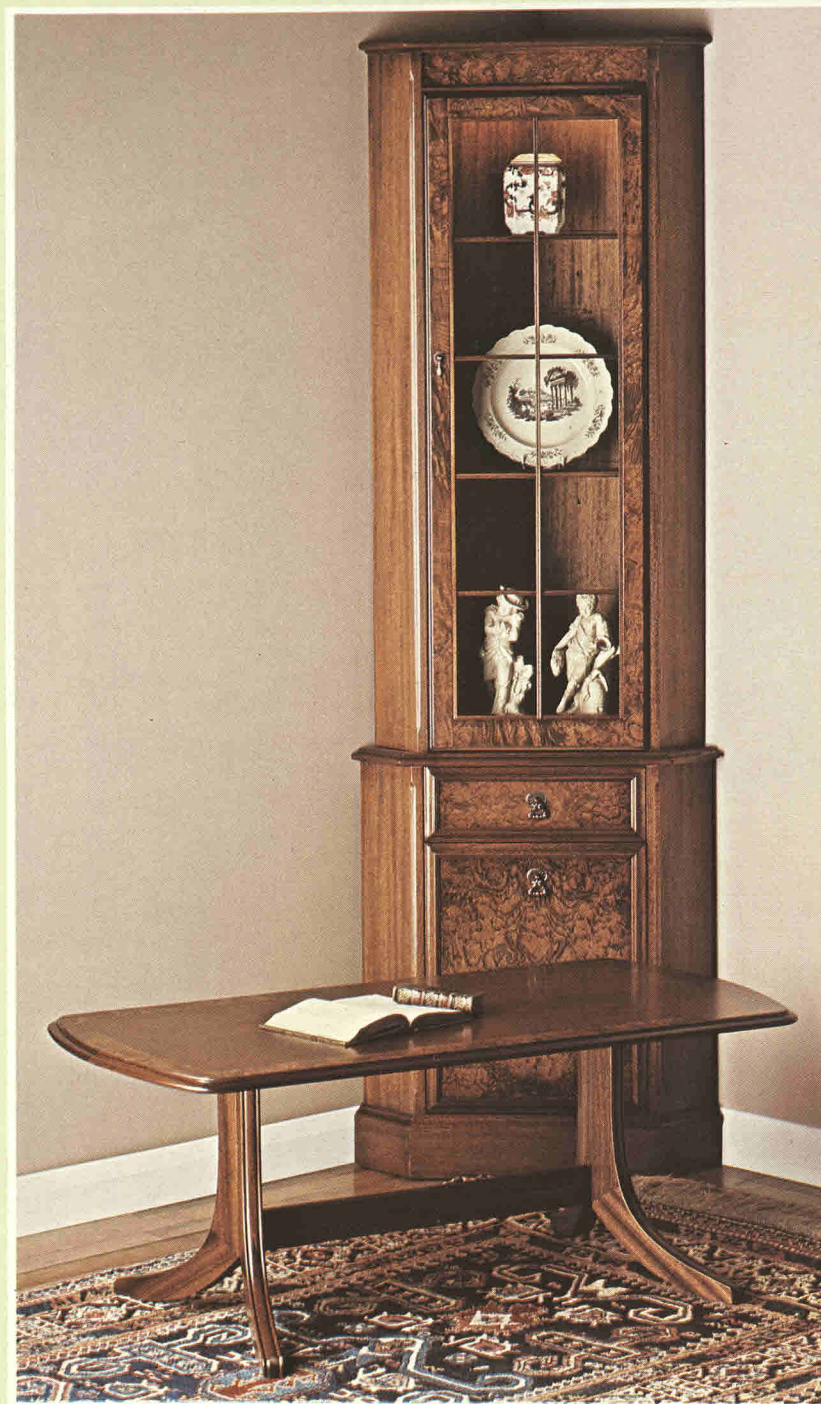

This display of Mahogany veneer cabinets would take pride of place in any home. It consists of two base and two top units, each complementing the other perfectly.

The veneer may be different, but the features are those of the Burr Ash cabinets. There is just one difference in styling; with Burr Ash the glass doors are divided into rectangular panels, whereas here the doors are fitted with bevelled edged glass.

Featured here is our Burr Ash external corner unit, and our elegant coffee table. Both available in Mahogany.

This elegant Mahogany table, with its matching chairs, will enhance any dining room. Observe the graceful curves of its pedestal legs, and the shine of the superb brass finish on its feet. Its Burr Ash counterpart is featured on the cover. With its folding centre fully extended it can seat ten people.

The Mahogany chairs are covered with Armadale Rose fabric, the Burr Ash with Charleston Brown. In total, you have a choice of 13 different covers.

### HOW TO CARE FOR YOUR FURNITURE.

Parker Knoll furniture is so well-made there is very little for you to do. Just be gentle. Don't place oven hot dishes directly onto wood surfaces. Your commonsense will tell you the other 'don'ts'.

Apart from commonsense all you really need to keep your furniture beautiful is a damp cloth. Give the surfaces a wipe now and again. Polish is unnecessary, and oil can be harmful.

**Dimensions Sheet.** For details on the rest of our Parker Knoll furniture, refer to the dimensions sheet enclosed.
