

THE TEAK COLLECTION

by
Nathan the master craftsmen.

Strange though it may sound, the cabinet makers at Nathan exchanged the more traditional tools of the trade, like this hand brace, in favour of machines.

Why?

Well, as they will tell you themselves, using more up to date methods we can produce furniture to a much higher standard of finish.

Of course one thing that hasn't changed is our insistence on using only the finest teak veneers and timber.

And what's more, the superb finish on the outside is matched by thoughtfully planned interiors.

Concealed lighting, specially fitted drawers and adjustable shelves are just a few of the features contained in our units.

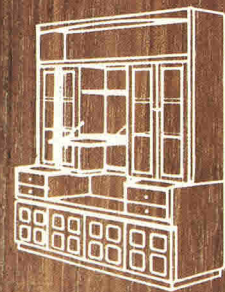

Naturally, we make a great many pieces of furniture in a wide variety of styles and sizes, so there's bound to be something to suit your home.

But as you browse through this brochure, you'll soon realise why our Teak Collection has become so popular.

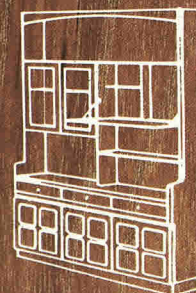

4054 Combination unit

The combination unit 4054 incorporates all the best features of the teak range. There is a glass door display cupboard, a lockable drinks cabinet and fitted drawers, one for cutlery and one for cassettes (interiors shown on Page 4) and concealed lighting. The unit measures 76" high x 60" wide (193cm x 152.5cm) and is 10½" (26.5cm) deep at the top and 18" (45.5cm) deep at the base. This can be combined with other wall units in the range - please see below. All tall units are 76" (193cm) high.

4774 Low external corner unit

4004 Low single drawer unit

This is our range of low units which can be used individually or combined. They are ideal for smaller homes and rooms, particularly under windows where height is limited. All low units are 29½" (75cm) high. Above top from left to right is the 4444 low 4-drawer unit with 4114 low internal corner unit and 4414 low deep unit. Each of these measures 29½" high x 18" deep x 40" wide (75cm x 45.5cm x 101.5cm) except the internal corner unit which takes up 27½" (70cm) width along each wall.

Above left is the 4774 low external corner unit measuring 29½" high x 25¼" wide (75cm x 64cm) and occupies 18" (45.5cm) of wall space.

Above right is the 4004 low single drawer unit which measures 29½" high x 18" deep x 20" wide (75cm x 45.5cm x 51cm).

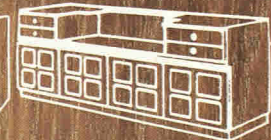

Tall units can be added to low units to give a run of your choice as the doors and sides line up in both ranges.

How To Care For Your Furniture

Furniture from Nathan are things of beauty. Here's how to keep them a joy forever. Naturally we do our part; for example, we give the table tops a special finish to make them stain and heat resistant. Even so, be gentle. Don't place oven-hot dishes directly onto wood surfaces. Don't strain the stays by over-loading the drop leaves. Your common sense will tell you the other 'don'ts'. Apart from common sense all you really need to keep your furniture beautiful is a damp cloth. Just give the surface a wipe now and again. Polish is unnecessary, and oil is harmful.

We would like to remind you that no two pieces of natural wood are the same – this is why it is so attractive. It does however mean that we are unable to guarantee an exact match.

All measurements quoted are to the nearest 1/2" (1.2cm).
