

Research Degree Forms

Summary of Changes 2026-27

- Updated the RD2 Progress Review form to strengthen researcher development and reflective planning, including a new forward-looking section for students to identify development priorities and planned actions.
- Reviewed the RD3e Extension and RD3i Intermission forms to ensure guidance and information requirements remain aligned with current processes; RD3i now also captures concurrent enrolment on other academic or professional programmes.
- Updated the RD4 Change of Supervisor form to include clearer confirmation of School-level consultation before formal approval of changes to supervisory arrangements.
- Updated the RD10 Student Declaration to include a new declaration on the use of generative AI and revised guidance on electronic thesis deposit, open access and EThOS.
